

## A message from the Chief Investigators

Welcome to the Wakefield team (led by Mr Mohammed Aldiwani) who opened to recruitment in May. Best of luck with recruitment!

We have fallen short of the internal pilot target of 86 participants by 31 May 2024. However, we're not far behind so please do keep recruiting! We are meeting with the funder of the study in the next few weeks. A strong performance in June will support our request to continue with recruitment. Thank you for your efforts to date and please keep going!

**Congratulations to Wolverhampton, Stockport, Guys and Manchester** for achieving the highest average recruitment rates per centre per month. Well done!

**Congratulations to Guys, Leicester, Canterbury and Leeds** for moving up the league table!

**Study website top tip:** Did you know there is a completion report on the study website? You will find the completion report on the study dashboard (the first page on login). A traffic light system identifies which CRFs are complete, partially complete, outstanding, or not yet due ( ● ● ● ).

It's a useful visual cue to identify quickly if any data is missing/outstanding.
